

Fancy Feet Dance Studio Work/Study

Scholarship Program 2019-2020

We wish to thank our community of family and friends who have contributed over the last 11 years to our Work/Study Scholarship Program. These students and our staff are so grateful to you for providing some assistance to the students who wish to participate in the discipline and joy of dance.

We are now entering our 28th year in the Palisades Community and entering the 12th year of our Work/Study Scholarship Program. This program was created for dancers to train at Fancy Feet and receive some financial aid while also contributing to their own education by spending time as an assistant in the classroom or as office assistants. It is my wish to never turn a student away that wants to dance and with your help as a community we continue to embrace every dancer that has the desire and drive to participate. This program has become critical in assisting some of our most talented and ambitious young students to realize their full potential. While they possess the drive, determination, and discipline to succeed, their individual circumstances often leave them unable to afford the necessary classes which would best develop their technique. We'd like to offer them every opportunity to be as positive in their life choices as possible.

The students we support not only demonstrate great potential as dancers, teachers and/or choreographers, but they are also incredible role models for other students. Dance is their priority for many reasons. They often take the most classes and participate in every capacity at the dance studio. Fancy Feet provides them a safe and nurturing environment in which to create and develop.

I would like to thank you for any contribution you are able to make and I would like to recognize those who help support this program in our annual recital program in 2020. Thank you so much for your support!
